

PFBC Pneumatic Bag Cart

Flow rates up to 49 GPM

Our PFBC Pneumatic Bag Cart utilizes the industry standard #2 Size Bag Housing. The PFBC Filter Cart is ideal for batch processing, or filtering from tanks or drums. It can be used for filtering new fluids during transfer and replenishment, as well as filtering fluids currently in service. Our Bag Filter Carts are most effective controlling particulate problems before they cause damage to critical production equipment.

Our PFBC Filter Cart utilizes a positive displacement pneumatic pump that transfers fluids by movement of diaphragms driven by compressed air. Our PFBC Filter Cart incorporates a pulsation dampener which acts as an air cushion and automatically adjusts to the pressure change and absorbs any pulsation.

Applications

Our PFBC Filter Carts can be used with coolants, metal working, and other fluids. Most of these fluids are out of spec before they even come in contact with the hydraulic or lube systems. Contamination enters the fluid during processing, mixing, handling and storage. Our portable carts are the ideal means of pre-filtering and transferring these fluids.

Our PFBC Filter Cart was designed with the operator in mind. It is manufactured on a 3/8" thick steel platform. It includes 10" Hard Rubber Wheels and Swivel Locking Front Casters providing shock absorption, quiet operation, and ease of rolling over rough terrain.

Options

We have the ability to supply a variety of optional equipment for your application, including but not limited to:

- Flow Meters
- Temperature Gauges
- Dip Wands/Hoses
- Throttle Valves
- In-Line Particle Counter

Standard Features

3.4 GPM to 49 GPM (12.87 LPM to 185.49 LPM)
1/4" to 1" Connection Sizes
Aluminum Pneumatic Pump
Aluminum Pulsation Dampener
Quick-Opening Covers (no special tools required)
Uses Standard Number 2 Size Filter Bags
Filter Regulator
Bag Housing
Carbon Steel or Stainless Steel Construction
Vacuum Gauges
Sample Ports
(2) Swivel Locking Casters
(2) 10" Rubber Wheels
Seamless Stainless Steel Tubing
